

LEGAL PITFALLS OF DOCUMENTATION

Presented by Fred Wetzel
272 North Bedford, Mt. Kisco
Carvel Conference Room

TUESDAY NOVEMBER 12TH, 2019, 9AM TO 1PM

Add a little bit This interactive one-day seminar focuses on practical approaches to reducing risk through better documentation strategies. It provides an overview and orientation to the laws, regulations, and Administrative Memorandums controlling the delivery of OPWDD Residential, Day and HCBS Waiver Services. Failure to understand the related documentation risks can be costly, leading to possible legal and/or professional consequences. This seminar will also discuss how to effectively and safely use email communication to share protected health information. By equipping yourself with this helpful information, you will be in a better position to make sound decisions and avoid the liability traps that exist in day to day activities.

Who should attend? Managers, administrators, nurses, ABSS, Psychologist, QIDPs, Day Program and HCBS Waiver Services staff, and other I/DD professionals. You owe it to yourself and the people you support.
